

Tea Menu

BLACK TEA

Earl Grey with Lavender Blossoms

Owes its flavorful foundation to the selected organic teas from India and Ceylon. These are blended with Bergamot, a Mediterranean citrus, and then enhanced with the lightest touch of lavender blossoms. The quintessential afternoon tea.

Celtic Breakfast

A richly flavored and robust tea. Leaf from Assam provides a rich touch of malt and Ceylon teas from mountain estates keep the blend smooth yet striking. Delightful whenever a strong cup of tea is the favored refreshment.

GREEN TEA

Dragon Well Green

One of the most famous of all Chinese teas. It has a vibrant color and very appealing nutty aroma. Particularly well known for a long finish, with a lingering bittersweetness, this is one of the most refreshing green teas in summer heat.

Moroccan Mint Green

Blended from carefully selected green teas and the spearmint favored in North Africa. It is a revitalizing refreshment, and a perfect cup with which to welcome guests. A cup of hospitality and quiet grace, with only half the caffeine of other green teas.

HERBAL TEA

Chamomile Spearmint

Infused with Bergamot, this tea offers a restful interlude at any time. Chamomile and Spearmint are appreciated for their soothing comforts. Bergamot is the Mediterranean citrus used to perfume Earl Grey teas and it lifts spirits while calming nerves.

Northwest Blackberry

A celebration of field and forest. Selected wild leaves and berries are honored around the world for the herbal brews they yield. Here in the northwest, the richness of blackberries provides a delightful cup of tea. Fantastic served over ice!
